

Carif 450 BSA Semi Automatic Sawing Machine for Industrial Metal Sawing.

Heavy Duty high quality Italian made semi -automatic bandsaw for precision cutting of metals including stainless steels through to aluminium.

Standard Features

Robust steel base assembly with a powder coated finish

Hardened aluminium alloy bow structure.

Patented hydraulic system for fine regulation of the bow feed and controlled cutting pressure

Double mitre swing frame: -45° / $+60^{\circ}$

Blade rotation sensor for monitoring blade breakage

Large working area for material support

Complete coolant system with electric pump and 50 litre tank.

Large swarf bin which is easily removed for emptying and cleaning

2 speed motor (variable speed options are available)

Options

1 Air / Oil Lubrication System (3 Litre)

2 Digital Display of the mitre angle

3 Laser Line

4 Hydraulic Unit for vertical clamping of the material

5 Increase capacity @ 90 degree - 500mm x 190mm h

6 LED lighting unit for work (may reduce height capacity)
